BETTER CHICKEN COMMITMENT
United States & Canada

November 2019

To Whom It May Concern:

As you may know, we, the undersigned organizations, work individually with many food companies. In the course of that engagement, we’re sometimes asked by companies if our groups can speak with one voice. That generally isn’t possible—our groups don’t necessarily work in tandem, and often disagree on issues, tactics, and more.

That said, you may be pleased to know that, while we often are not in agreement with one another, we have reached agreement on what the most pressing welfare concerns related to broiler production are, and how to best mitigate those concerns. Toward that end, we’ve reached two versions of broiler welfare policy language—each of which addresses the four main welfare concerns associated with broiler production, and each of which we all agree represents meaningful progress. Those versions are laid out below. Thank you for your interest in this issue.

Sincerely,

![Logos of various organizations]

**VERSION ONE**

By 2024, we will source only chicken certified by Global Animal Partnership (GAP) and require all chickens to be processed in a manner that avoids live-dumping and live-shackling, and instead utilizes a pre-shackle, multi-step controlled-atmosphere processing system that’s widely hailed as more humane.

**VERSION TWO**

By 2024, we will require our chicken suppliers to meet the following requirements for 100% of our products:

1. Maximum stocking density of 6.0 lbs./sq. foot and prohibit broiler cages.
2. Provide birds enriched environments including litter, lighting, and enrichment that meets Global Animal Partnership’s standards.
3. Process chickens in a manner that avoids pre-stun handling and instead utilizes a multi-step controlled-atmosphere processing system that induces an irreversible stun.
4. Demonstrate compliance with all standards via third-party auditing.

And by 2026:

5. Adopt breeds that demonstrate higher welfare outcomes, either: Hubbard Norfolk Black, JA757, JACYS7, JA787, JA957, JA987, JACY87, REDBRO, or Redbro M; Aviagen Rambler Ranger, Ranger Classic, Ranger Gold, Ranger Premium, or Rowan Ranger; Cobb-Sasso 200 (CS200); Cooks Venture Pioneer, or others that meet the criteria of the RSPCA Broiler Breed Welfare Assessment Protocol or Global Animal Partnership (GAP).

* Prior to September 2019, this document was titled “Joint Animal Protection Organization Statement On Broiler Chicken Welfare Issues.”
